解答例 1

I would like to live in a large city. This is because I can go anywhere anytime if I use public transportation. Because I don't have a driver's license, it is very inconvenient for me to live in a small town or a village. Of course, I sometimes feel stress on the bus in the heavy traffic, or on the crowded train. However, the fare is not expensive. So, I prefer living in a large city.

解答例 2

I would rather live in a village. The reason is that it is better for my health to live there. The fresh air there makes me feel refreshed. Some people say that there is much less entertainment in villages than in large cities. However, we can't enjoy our life without good health. So, to lead a healthy and pleasant life, I would like to live in a village.
